

Click to see all of the BSW activities

This year, BSW's focus is **Change and Adapt**.

Pupil Leadership Group **Esplanade Eagles** were asked to help plan Science Week for us. Thank you for raising your voice, we love making learning engaging for you!

Monday

 1:30 – 2:30 Primary 1, 2 and 3 **Day and Night** assembly with Generation Science

We could do an art challenge to draw animals that camouflage?

Research different animals that camouflage into their environment. Draw an animal and make it camouflage into a wall or table in your classroom. Take a photo and post it on the blog!

Tuesday

 Fizz, Boom, Bang workshops with Generation Science
9:15 Primary 4 11:00 Primary 5/6 13:30 Primary 6/7

I want science experiments that go BOOM!

Sorted!
Generation science said this experiment is safe for P4+,
So P1,2,3 may need to wait a few years...

Wednesday

Primary 1 at Dynamic Earth 9:30 – 12:00

We could research endangered animals?

Using your iPads, research an endangered animal and answer these questions...

- Where does it live?
- Why is it endangered?
- What can we do to help?

Thursday

9.15 whole school assembly with Ocean Academy

Primary 4, 5, 6 and 7 workshop with Ocean Academy on Plastic Pollution.

We could go to the beach and pick up plastic to protect the sea creatures.

Great idea but we can't get to the beach this week 😞 BUT! We have Ocean Academy visiting us today to talk about this topic. You can also learn about protecting our oceans by playing this game!

<https://www.bbc.co.uk/cbbc/games/plastic-planet-marine-rescue-game>

Friday

P2 visiting Dynamic Earth

We could adapt by changing our houses
- We could design a house to survive a natural disaster?

What would a house look like that could survive a flood? Would it be on stilts or float? What about a building that would survive a volcano eruption?
You could draw it, make it on Minecraft, or make it with Lego!

Deadline for the school entering the BSW poster competition is Friday 21st March. Please give entries to Miss Copeland in P1 😊
